

## Lesson Handout:

### Cubecraft - Create your own! Level 1

- Step 1: Use a pencil and draw light, connecting, lines across the top, front, and sides of the template.
- Step 2: Staying with pencil, add your character details, expression, and pose. Ink them with a pen. Let the ink dry and erase the grid and pencil lines.
- Step 3: Use colored pencils or watercolors to add the colors. Nice job!
- Step 4: Cut out the figure as a single piece using scissors. Be careful, especially in the corners!
- Step 5: Fold along the lines between front and sides. Fold along the lines between the top and front, and along the side flaps.
- Step 6: Use some tape or glue to stick the side flaps to the inside of the sides. Nice job!
